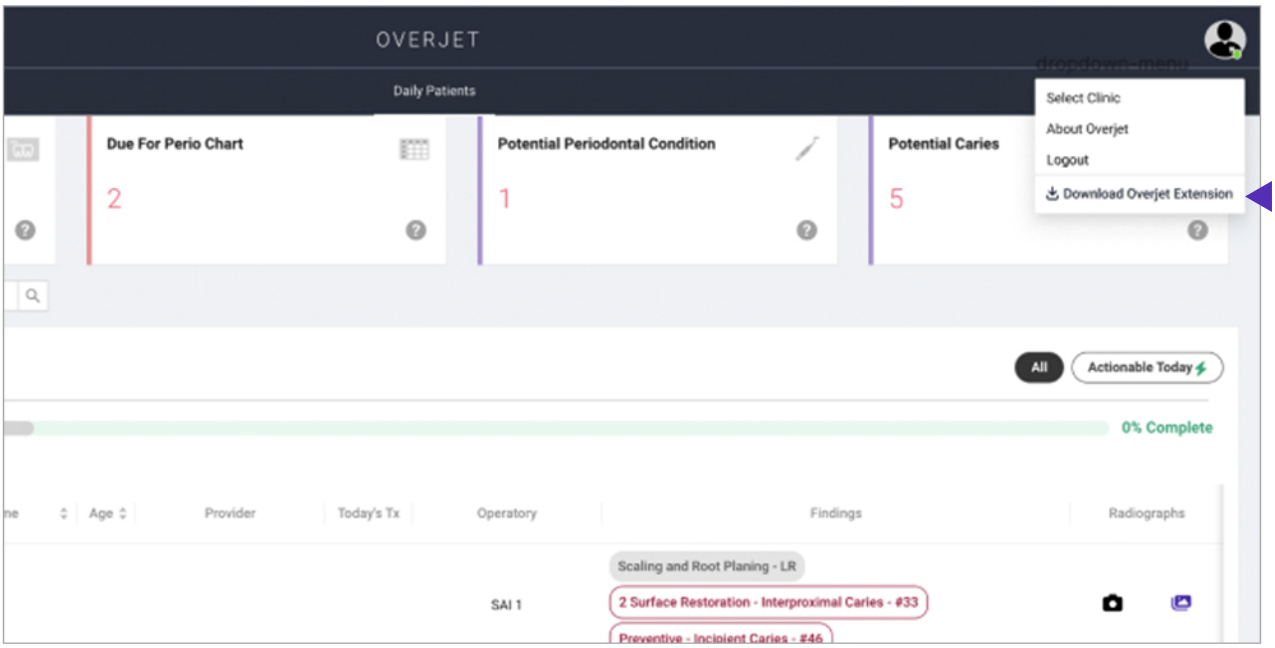
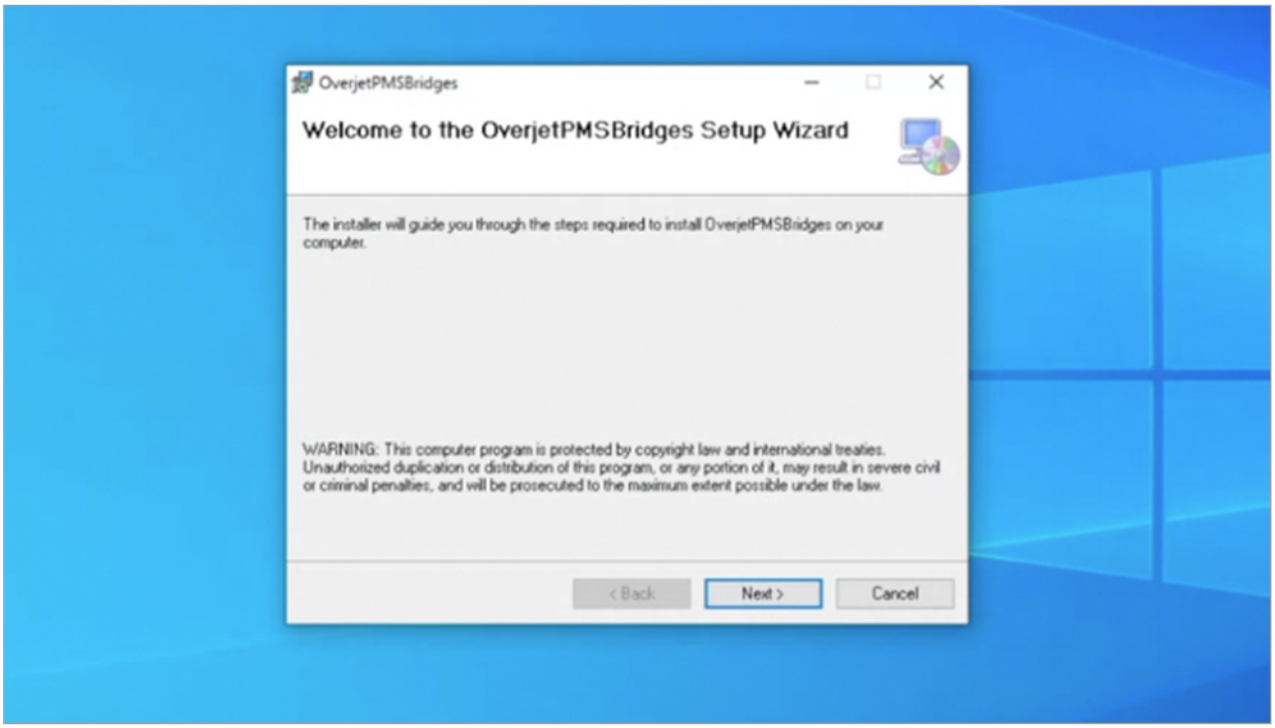
Instructions to Download Overjet-Open Dental Bridge Extension for One-Click Radiograph Access

Save time by eliminating the need to search for patients on the daily patients page. Instead, access patient radiographs directly from your Practice Management System once you have installed the Overjet extension on your workstation.

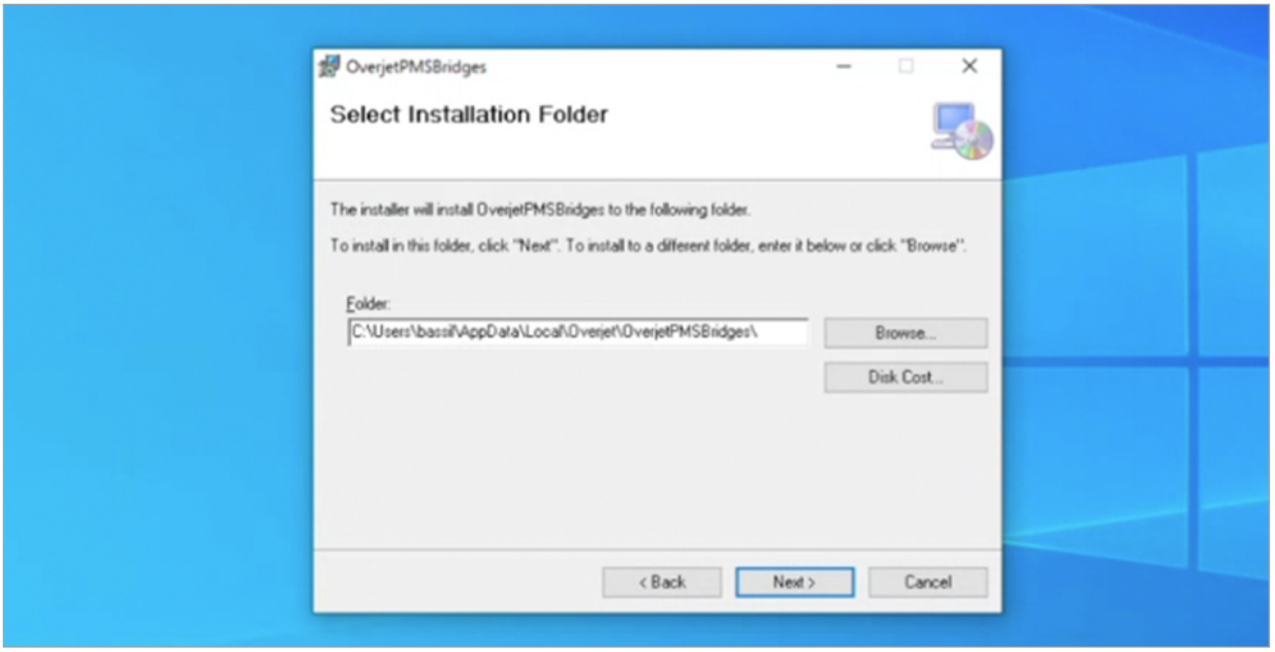
1 Log into Overjet on your workstation and select Download Overjet Extension



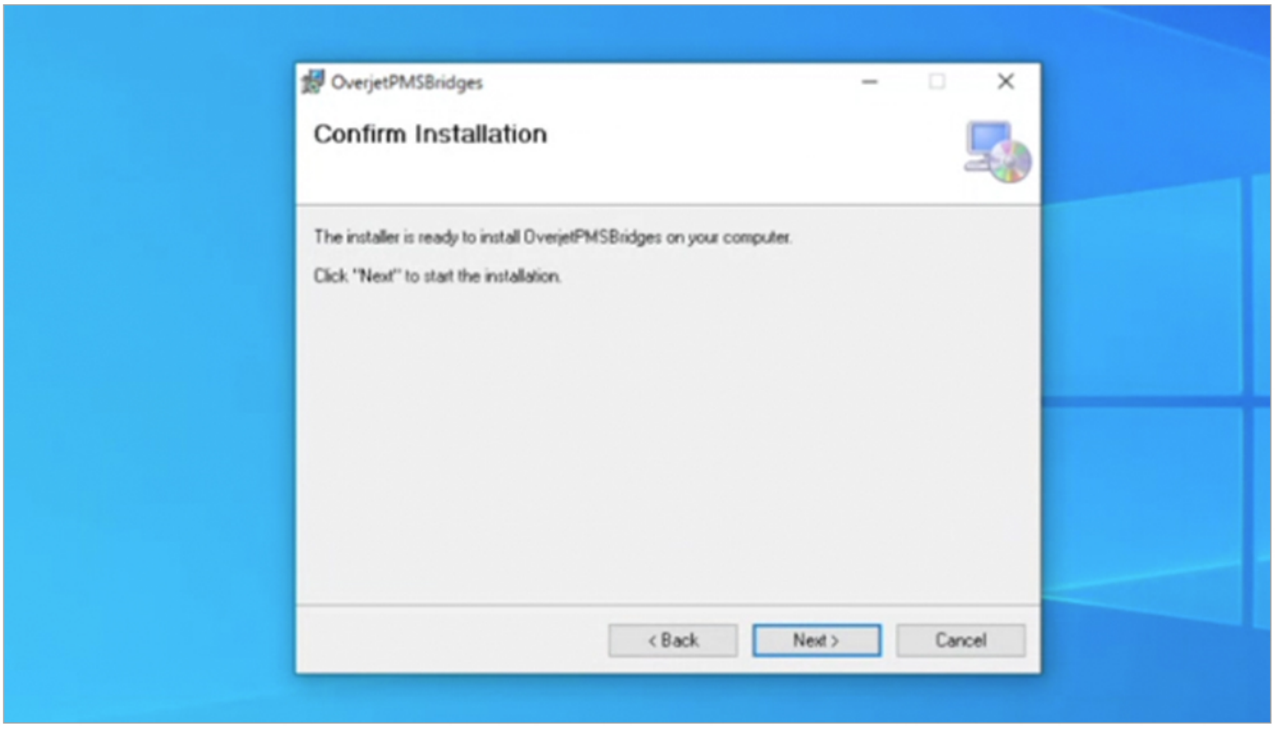
2 Run PMSBridgesSetup.msi Installer



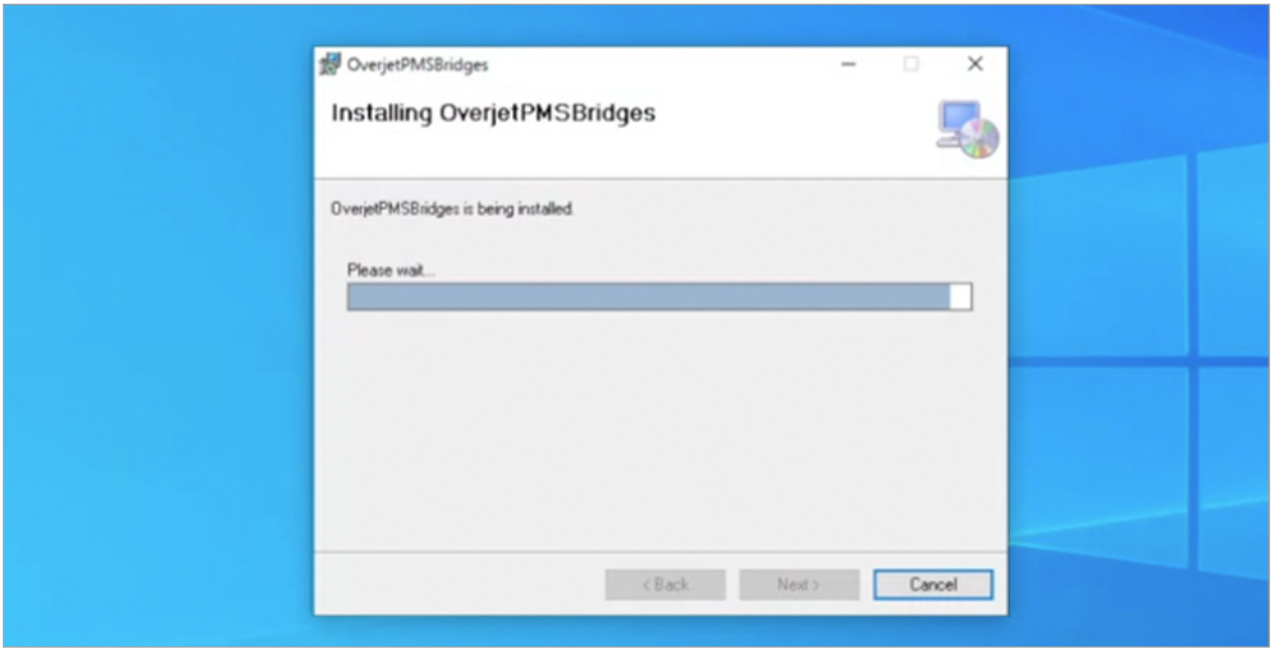
3 The workstation will assign a file path automatically. Just click next.



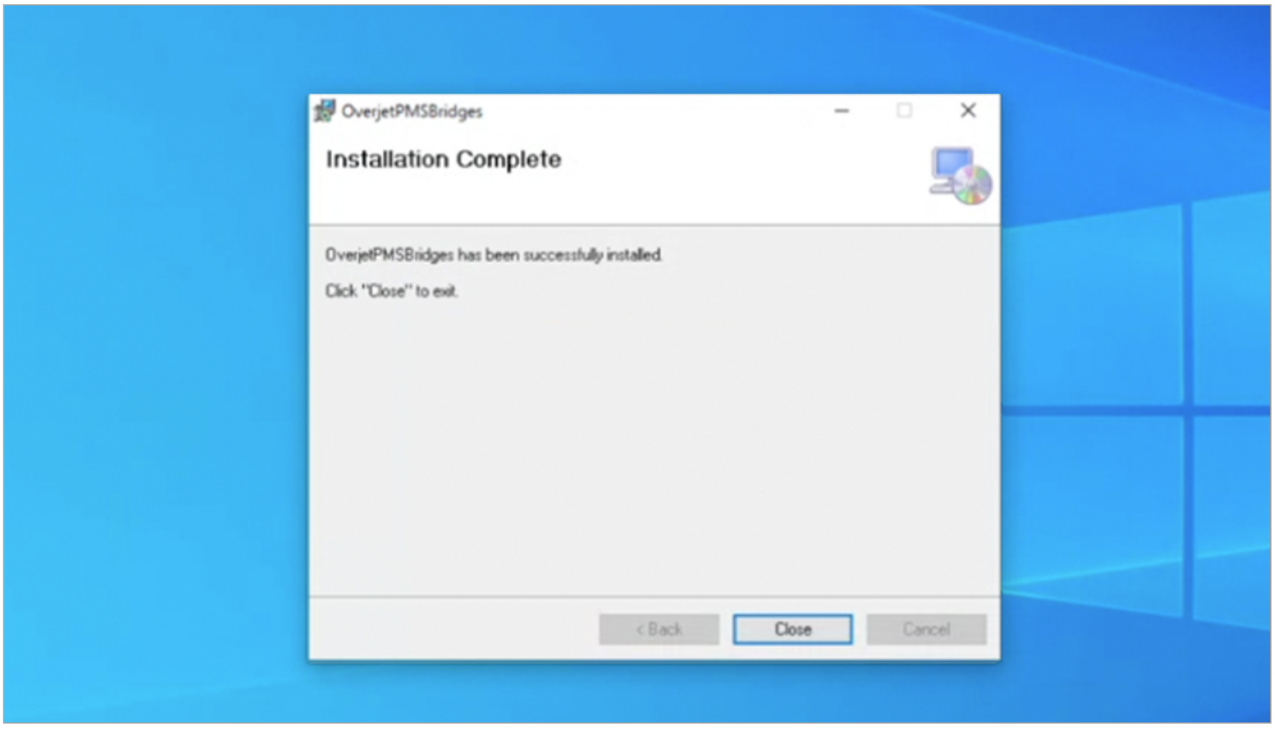
4 On the Confirm Installation prompt, click Next



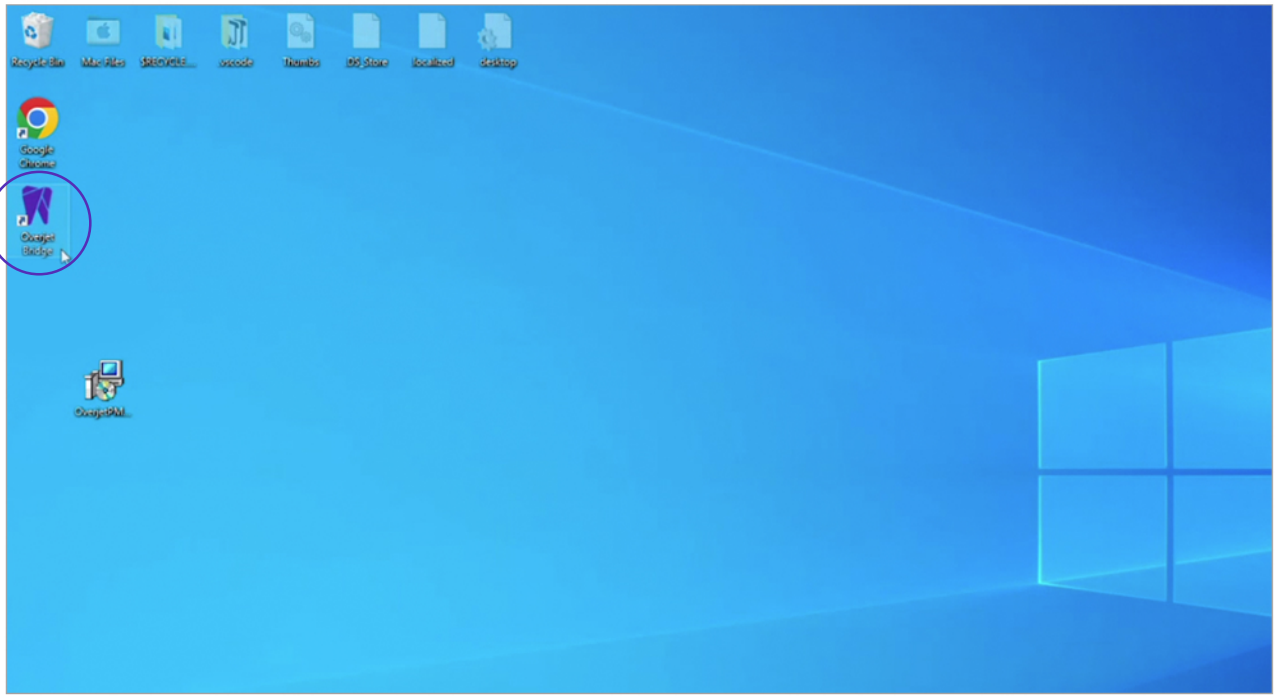
5 Please wait for the installation to complete, typically about 2 minutes



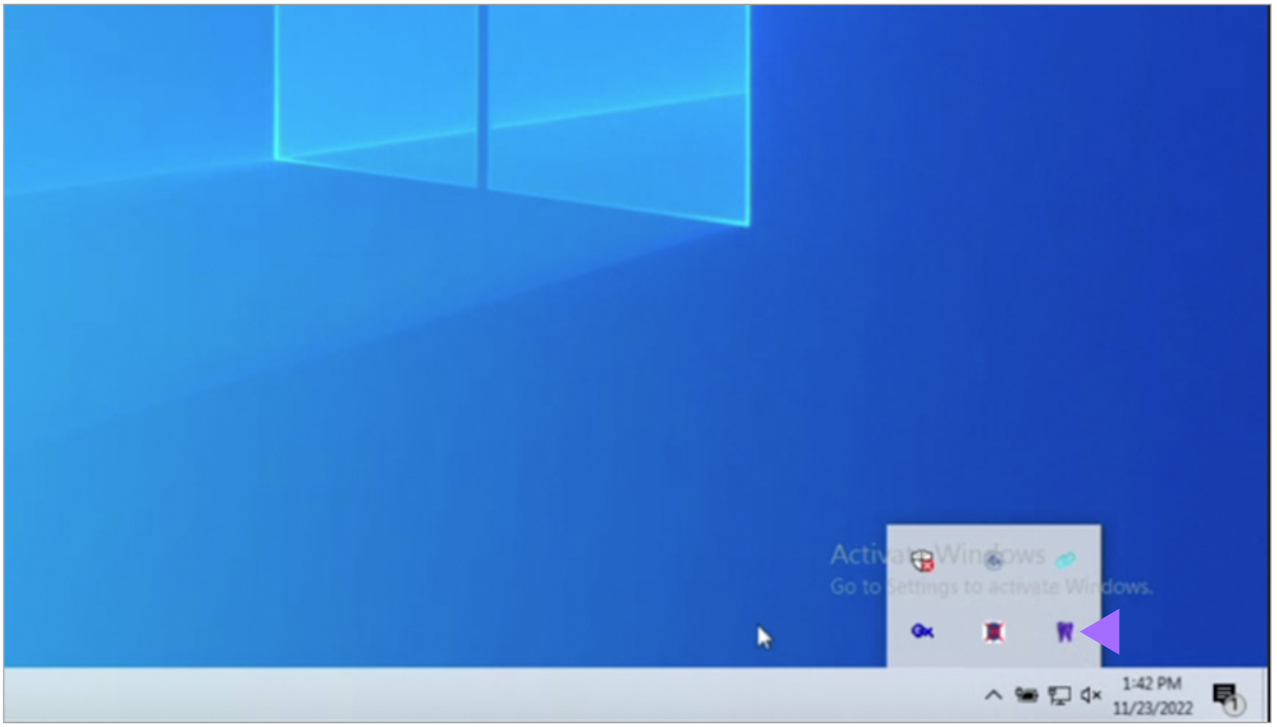
6 Close the application



7 **Open the Overjet Bridge application by double-clicking the Overjet Bridge icon**



8 **The application will open in the Desktop tray**



To access patient images from Open Dental with one click

1. Select the patient in Open Dental
2. Double click the Overjet Bridge icon on the Desktop tray
